Board of Greene County Commissioners
35 Greene St,
Xenia, OH 45385

**RE: 2021 Road and Bridge Condition
2022 Road and Bridge Program**

Dear Honorable Board of County Commissioners:

It is my privilege and responsibility, in compliance with Section 5543.02 of the Ohio Revised Code, to provide you with the condition of the county roads and bridges, as of December 31, 2021 and to provide you with the estimate of our maintenance of county owned roads, bridges and culverts for 2022.

The Greene County Engineer is responsible for the maintenance of 323.718 miles of county roads and 283 bridges. This responsibility includes the repair, replacement, and improvement of roads and bridges as well as snow and ice removal during the winter. The County Engineer is not responsible for roads and bridges in municipalities, except bridges on through routes of general purpose.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Stephanie Ann Goff". The signature is written in a cursive, flowing style.

Stephanie Ann Goff, P.E., P.S.
Greene County Engineer

**CONDITION ASSESSMENTS OF THE COUNTY'S ROAD AND BRIDGE INFRASTRUCTURE
AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2021**

County Roads

The condition of road pavement is measured using a Physical Condition Rating system, which assigns a numerical ranking to each road based on the following criteria: date of last surface maintenance; pavement surface condition; traffic volume; and traffic type. The Physical Condition Rating is determined by a committee of experts from the County Engineer's Office based on the criteria discussed above. The Physical Condition Rating is also a numerical ranking of one to five with the following characteristics:

<u>Numeric Ranking</u>	<u>Condition Ranking</u>	<u>Condition Description</u>
1	Critical	Condition is dangerous, unsafe or unusable
2	Poor	Condition is inadequate or substandard
3	Fair	Condition is average, not good or poor
4	Good	Condition is safe and suitable for purpose
5	Excellent	Condition is new or requires no repair

It is the policy of the County Engineer that 90% of County roads are to be maintained in a condition of fair or better using the Physical Condition Rating and that a condition assessment using the Physical Condition Rating for County roads is performed annually. The following summarizes the Physical Condition Rating of County roads as of December 31, 2021, 2020 and 2019:

<u>Condition Assessment</u>	<u>2021</u>		<u>2020</u>		<u>2019</u>	
	<u>Lane Miles</u>	<u>% of Lane Miles</u>	<u>Lane Miles</u>	<u>% of Lane Miles</u>	<u>Lane Miles</u>	<u>% of Lane Miles</u>
Fair or Better	324	100%	324	100%	324	100%
Less than Fair	0	0%	0	0%	0	0%

County Bridges

The condition of the County's bridges is determined using a General Appraisal Rating which is a condition coding system developed by the Federal Highway Administration. The General Appraisal Rating consists of various ratings of the individual elements of the structure and an overall ranking of between zero and nine is assigned. The ranking is as follows:

<u>Numerical Ranking</u>	<u>Condition Ranking</u>
7 to 9	Good
5 to 6	Fair
3 to 4	Poor
0 to 2	Critical

It is the policy of the County Engineer to maintain 95% of the County bridges at a level of fair or better. In accordance with the Ohio Revised Code, each bridge is inspected annually. The following is a summary of the condition assessment performed as of December 31, 2021, 2020, and 2019:

<u>Condition Assessment</u>	<u>2021</u>		<u>2020</u>		<u>2019</u>	
	<u>Number of Bridges</u>	<u>% of Bridges</u>	<u>Number of Bridges</u>	<u>% of Bridges</u>	<u>Number of Bridges</u>	<u>% of Bridges</u>
Fair or Better	278	98.2%	282	99%	282	99%
Less than Fair	5	1.8%	1	1%	1	1%
